## **The Riverside Restorative Growthprint Available for Review and Comment**

The City of Riverside has completed its draft Riverside Restorative Growthprint (RRG) – Economic Prosperity Action Plan and Climate Action Plan, which outlines a plan for the Riverside community to tie economic development activities to a strategy for reducing the community's greenhouse gas emissions. To download a copy, [click here](#).

The draft RRG will be presented and discussed at the following public meetings:

- **Thursday, June 18<sup>th</sup> at 9:00 a.m.** - Planning Commission meeting to be held in the City Council Chambers at Riverside City Hall, located at 3900 Main Street, Riverside, CA 92522.
- **Friday, July 10<sup>th</sup> at 8:30 a.m.** – Riverside Public Utilities board meeting to be held in the City Council Chambers at Riverside City Hall, located at 3900 Main Street, Riverside, CA 92522.
- **Wednesday, July 15<sup>th</sup> at 4:00 p.m.** - Green Accountability Performance Committee meeting to be held in the Mayor's Ceremonial Room (7<sup>th</sup> floor) at Riverside City Hall, located at 3900 Main Street, Riverside, CA 92522.
- **Thursday, July 16<sup>th</sup> at 3:00 p.m.** - Riverside Utility Services/Land Use/Energy Development Committee meeting to be held in the City Council Chambers at Riverside City Hall, located at 3900 Main Street, Riverside, CA 92522.

The Riverside Restorative Growthprint (RRG) combines two plans: the Economic Prosperity Action Plan (RRG-EPAP) and the Climate Action Plan (RRG-CAP), which work in conjunction to spur entrepreneurship and smart growth while advancing the City of Riverside's GHG emission reduction goals. The adoption of the RRG will result in actions to reduce GHG emissions that align with the City's planning priorities and its vision of a future "green" economy based on sustainable businesses. The RRG-EPAP identifies the measures and strategies in the RRG-CAP with the greatest potential to drive local economic prosperity through clean-tech investment, entrepreneurship, and expansion of local green businesses.
